The Gang's Refrain.

"Tid the fashion now to 'roast' D. P. Carr, all because he must always get that Florida's not in it and Deming below par, how is left and well to the side, no let us roast D. P. Carr."

Let us see the County commissioners as far as they are straight and often consult D. P. Carr, he is on our side and won't let us up, so let us roast D. P. Carr.

The people know us, so we have to use tar, to cover our tracks and blacken D. P. Carr, he is on our side and won't let us up, so let us roast D. P. Carr.

A big reception and banquet will be given to Judge Fall here last of this week.

Court will probably adjourn the last of this week. It will be the shortest term held in this County for years.

The Enterprise spring post has commenced to sing, and the Lordsburg Liberal thinks that spring, gentle Annie, is with us.

Col. D. A. Martin is foreman of the grand jury and is making a good one. He believes in doing business when there is any to be done and doing it well.

Ed. White and C. M. Forsaker have purchased the Elephant Corral of Alexander & Farnsworth and will commence business on the first of May.

Died—In Washington, April 15, 1933, Mrs. Martha Louise Hamilton, wife of Dr. James P. Hamilton, aged 58 years. Mrs. Hamilton was the mother of our townsman, B. E. Hamilton.

W. T. Ross, Whitewright, Tex., desires to know the whereabouts of his uncle, P. D. Ross, last heard from in Fort Scott, Kas., in 1881; also of his uncle, Ben, Williamson, last heard from in Silver City, N. M., about 1880.

The blacksmith shop owned by the Tool and Shoe Mining Company at Cook's Peak was destroyed by fire recently. It is supposed that the fire originated from a spark from the forge. The loss was about \$250.

The Deming Headlight seems to apprehend danger of failure of the silver convention because of the money wasted on a sign for headquarters. Secretary Carr states that it was printed on 40 cts. worth of maulin and the total cost was \$316. No comment is necessary.

The general superintendent of the Atchison, Topeka and Santa Fe has issued a circular to the effect that on and after May 1, all station agents and baggage masters will wear a cap and badge similar to those now worn by conductors and brakemen when on duty. The agent and baggage master here will come out next week with new caps.

Probably \$4 worth of envelopes ordered by the secretary of the southwest silver convention may not be used because the return on them was to the secretary only. On the new envelopes appear the names of President Hadley, executive committee and secretary. Will the Deming people join the Headlight to injure the convention because of this?

Do not forget the entertainment to be given tonight by the Peak Sisters for the benefit of the Methodist church. Choice selections of reading and music by friends who have kindly tendered their services, and instrumental music by the Silver City orchestra, will add to the pleasure you will have in listening to the adventures and experiences of the Peak Sisters. Go to Porterfield's and secure your seats.

A lodge of the order of the Eastern Star was organized at Georgetown last Saturday evening. Mr. and Mrs. J. J. Kelly, Mrs. W. C. Porterfield and Mrs. Connor were the officers who went from this place to install the new chapter. It has only been a few weeks since a chapter of the Eastern Star was organized here.

Several thousand stickers have been received by the committee which is looking after the advertising of the Southwest Silver Convention to be held here next July. The stickers are very handsome and can be used on envelopes, packages or papers sent out in the mail or stuck up in places where they will attract attention. Any one can get supplied at 25 cents a hundred.

If the Timmer House is to be ready for guests by the 4th of July, work will have to be commenced on it before long. It has now been several months since the house was restored after a fire and the rear wall is in a dangerous condition so that considerable work will have to be done before guests can be accommodated there.

Judge Fall arrived at Las Cruces last Sunday afternoon from the east. He will not come here to hold court this term, preferring to have Judge McFie finish the term which he has commenced. The term will not last more than three or four days longer on account of lack of funds to pay expenses.

Information Wanted. Any person who can give any information about William H. Graham will greatly oblige his anxious relatives by communicating with Martin Maher, Silver City, N. M. What last heard from was in Albuquerque.

Catron and later was taken into partnership. His many friends here will be pained to learn of his death.

The Silver City band will doubtless make a creditable showing at the silver convention. There is time for considerable practice before the convention meets and the members of the band will probably do considerable tooting before the 4th of July.

District Court.

The spring term of the district court was opened here on Monday evening of last week, with Judge McFie on the bench. There was considerable time consumed in getting the jury and the grand jury was filled and commenced work on Wednesday. The petit jury was filled the following day and the trial of cases was commenced. Quite a number of civil cases were disposed of without going to trial.

The grand jury returned an indictment against Harry Munson who, it will be remembered broke into the residence of J. W. Carter, on the afternoon of the first of March and was caught in the act of appropriating articles. He was promptly arraigned and the indictment was read to him charging him with breaking into the house with "force and arms."

During the reading of the indictment he struck an attitude and appeared to be conscious of the fact that he was the object of all observers. After the reading of the indictment had been concluded he very seriously informed the judge that he was not armed when he broke into the house. The judge suppressed a smile and told the prisoner that the expression was a legal one and used in the regular form of the indictment and that it simply meant that he was accused of housebreaking.

When Munson was asked to plead to the indictment he did not hesitate to say that he was guilty but wanted to know whether the time spent in jail would count on his sentence. The judge informed him on this point that the time in jail would not count on a sentence to the penitentiary and then sentenced him to three years at hard labor in the Territorial penitentiary.

Munson has the appearance of being an old offender and it is more than probable that this is not the first sentence which has been pronounced upon him.

Frank Brennen was sentenced to three years for housebreaking at Deming.

Robert Jackson, a colored man, was sentenced three years for stealing a saddle. Had he pleaded guilty he might have escaped with a sentence of one year but he stood trial and told a story on the witness stand which no one believed. This probably added considerably to the sentence which he would otherwise have received.

Louis Pera was sentenced to three years imprisonment and to pay a fine of \$500 for horse stealing.

Yaidro Guerezo will spend three years at the Territorial penitentiary for making an assault with a deadly weapon.

Francisco Flores received a one year sentence for grand larceny. Flores is one of the prisoners who escaped from jail this year but he was recaptured and will have a chance to try his skill in getting out of the penitentiary.

G. R. Hope who was indicted for making an assault with a deadly weapon was acquitted.

Innocente Castillo, assault with a deadly weapon, sentenced to three years in the penitentiary.

Jesus Sanchez, discharging deadly weapon, sentenced to one year in the penitentiary.

Bilario Pena, larceny, sentenced to three years in the penitentiary.

Wm. Hughes and Luis Valle, larceny, each sentenced to one month in the County jail. The judge seemed to be light on these prisoners, who are mere boys, but they are hard characters and richly deserve the punishment which they will receive.

The following civil cases were disposed of last week:

J. P. Byron vs. J. P. Stanley, dismissed.

Lucy Snyder, administratrix, vs. W. C. Tookin, continued to next term.

Edgewood Distilling Co., vs. John Galvin, dismissed.

Col. D. A. Martin, foreman; Louis Altman, secretary; Charles Campbell, J. M. Fritter, Godfrey Geary, Julius English, Trullis Stephens, John T. Muir, W. P. Dorsey, George Hornbrook, H. C. Gam-

ble, Edward Kinick, J. M. Morris, Chris Schneider, R. L. Black, A. W. Harris, D. C. Lankford, Pablo Torres, T. N. Hawkins, Peter Mangall, Frank Thurmond.

PETE JOKE.

George Eddy, Thomas Knott, Ambrosio Montoya, J. O. Bonner, Fred Brandis, George Norton, N. Fisher, James Carter, E. B. Bolton, W. R. Merrill, W. H. White, Samuel Allen, J. T. Rabb, John S. Self, C. W. Marriott, Alfred O'Brien, D. A. Knowles, W. H. Bublitt, P. J. Dodd, E. C. Hartford, J. J. Brausch, M. J. Hinton.

The remains of Miss Indiana were discovered on the Sapello, near the residence of S. S. Brannan recently. The skulls were covered with pottery bowls and one of the skeletons had bone ornaments around the wrist. Manager Jacks, of the Oak Grove Company has sent one of the skulls, which is very peculiarly shaped, to New York. A large number of places have been discovered in this part of New Mexico where Indians or perhaps people who lived here before the Indians, were buried and almost invariably the heads have been covered with bowls which are inverted over the face and have a small hole in the bottom. Skeletons have been found in a good state of preservation at Walnut Springs and some have been dug up recently near the Maier Brothers residence below town.

Mayor Fleming was down to El Paso last week and while there talked up the coming silver convention to be held here. The famous McGinty club will give an entertainment the proceeds of which will be used to charter a special train from El Paso here. As the McGinty club never does anything by halves, it is expected that the train will bring three or four hundred El Pasoans to the convention. The McGinty band which will come along will be one of the attractions here on the 4th and 5th of July.

A family on the way from Arizona to Missouri arrived here last Saturday in a pitiable condition. They are making the journey in a wagon, and while at Burro Springs, about 25 miles from this place, a shot gun which they had was accidentally discharged, almost completely tearing off an arm of a boy about sixteen years of age. He was brought in here without delay and taken to the Grant County charity hospital where the arm was amputated. He is doing as well as can be expected and will probably recover. The family recently lost nearly all their effects in a fire and their eldest son died a short time ago. The family arrived in destitute circumstances but are being assisted by the people here.

He Has His Reward.

Less than a year ago Robert Redding, one of the well known residents of Lone Mountain, was wearing a grandfather's hat and shouting as loud as he could contentiously for the republican party. As the campaign progressed, he, like a sensible man, became disgusted with the ways of the republicans, but the ill looking grandfather's hat to rest and do not a handsome Cleveland hat.

He publicly proclaimed his change of heart and bet on the success of the democratic ticket. It is needless to say that he won. The news of the conversion reached Washington and he was appointed postmaster at Black Hawk last week but knew nothing of the appointment until he was told by a friend on the streets here that he had been appointed.

He told a representative of the Southwest Sentinel last Friday that he knew nothing of the appointment until after it had been made and that he was not an applicant for the place.

Mr. Redding changed his politics before the election and changed in good faith. Many of his republican friends told him that he was changing at the wrong time but now some of them are wishing that they had followed his example.

The Call of the Southwest Silver Convention and Mass Meeting of Miners.

Silver City, N. M., April 17, '33.

In obedience to the will and instructions of the Southwest Silver Convention and mass meeting of miners held in El Paso, Texas, on the 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 1932, the undersigned, charged with the duty of perpetuating the annual assemblage of the miners of the southwest do in virtue of the authority vested in them, announce that the third annual southwest silver convention and mass meeting of miners, will convene in Silver City on the 4th and 5th of July, 1933, at 9 a. m.

Miners are urged to be present and to otherwise lend their assistance to a cause which now, if ever, requires friends and advocates.

JOHN W. FLEMING, Chairman Executive Committee.

El Paso Tribune.

The silver convention meets in Silver City on the 4th of July next and the Tribune desires just here to give the business men and property owners of El Paso a private tip. It is this: Send the McGinty Club to Silver City on July 4th. It will be to your interest to do so. Silver City has always responded gallantly to every call. El Paso has ever made. The people of Silver City and of Grant County look on El Paso as their market, they are friendly to the business men of El Paso and our business men should make some exhibition of their appreciation of this partiality. Then let them join hands and so arrange affairs that the McGinty Club can attend the silver convention on the 4th of next July.

There were 29 prisoners in the County jail of this County, besides several United States prisoners, at the beginning of this term of court. It is expected that there will be at least a dozen candidates for the penitentiary by the end of the term and that several of the prisoners in the jail will be acquitted. When the term is finished there will not be very many prisoners in jail.

Mining and Milling.

Several residents of Grant County are contemplating a trip to the new gold fields in the northern part of the Territory early next month. The new fields near the Colorado line are said to be very rich.

A large amount of galvanized iron for the big pipe which is to bring the water from the dam on Whitewater to the Confidence Company's mill site is expected soon. The pipe will be about 6,000 feet long and will be riveted and put together on the ground. It was found that this method of doing the work would be cheaper than it would be to have the pipe shipped ready to lay as the freight would be much more on pipe than on galvanized iron. The pipe will be 18 inches in diameter and it will require considerable time to put it together after the iron arrives. The pipe will conduct water to drive a Pelton wheel which will furnish power to run the mill.

The last Chance mine and mill at Silver Creek are still idle but there is a prospect that something will be done with the property soon.

Work is now going on steadily in the Montana tunnel at Pinos Altos. The company has been about a year driving the tunnel to the vein but the work is now very nearly completed and it will not be long before it will be known what kind of ore there is in the vein at the tunnel level. If it should prove to be a little richer than the ore in the vein as far as it has been worked, the property will be a valuable one. The vein will probably be reached by the middle of June.

The Pyramid Silver Mining and Milling company is working about 50 men in the m. s. and mill at Pyramid. The mill is running steadily and the company has a good supply of water which comes from an artesian well put down by the company. Other companies which have an insufficient supply of water might adopt the plan of the Pyramid company with profit. The company made a shipment of high grade ore and concentrates about ten days ago and another shipment will be made soon. This property has been managed for some time by J. W. Hamilton who has resigned, his resignation to take effect on the 10th prox. Henry E. Hoffman who has been the assayer for the company will take charge of the mine and mill.

J. W. Hamilton has two claims about ten miles south of Pyramid upon which considerable work has been done. He has eight feet of good concentrating ore which will average \$50 per ton in silver. Mr. Hamilton expects to get out soon but will probably return to develop the property.

The comedy of "Betsey," as presented by the amateurs last Tuesday evening, was a decided success both dramatically and financially. The play itself is a very good one; it has been the star piece of one or two of the best modern comedy actors and was one of the best brilliant successes of the last London season. A. F. Nichol in the part of Mr. Dawson, the tutor, kept the house in roars of laughter, and showed himself to be possessed of dramatic ability of no mean order.

The three leading ladies' parts of Betsey, the heroine of the piece, Mrs. Birkett, and Mrs. McManus, were suitably dressed and very well acted by Mrs. Newcomb, Mrs. Nichol and Miss Mason. The parts of Madame Polenta, Nellie Bassett, and Clara Peyton were pleasingly rendered by Miss Miller, Miss Raymond and Miss Warren, respectively. B. C. Gilbert and W. Brule, as Mr. Birkett and Dick Talbot showed the steady improvement they are making as actors. R. G. Clarke showed an appreciation of the part of Adolphus Birkett and a power of expressing it that shows he has the making of an excellent actor in him. J. S. Joust's first appearance on Silver City boards, as Capt. McManus, leads us to hope for an early opportunity of seeing him again, while N. Pronger, as the "hairdresser," must have been taking lessons from our tonsorial artists. Altogether the play was much enjoyed by the large audience that gathered to see it; and the very satisfactory result of \$65 for the Episcopal church building fund was obtained.

The loss which the railroad strike has entailed upon cattle men in this section has been heavy. Several hundred head have been here ready for shipment for ten days and there are hundreds in other parts of the County awaiting shipment, while others are being rounded up for delivery early next month. If the strike continues much longer there will be such a large amount of freight to handle that cattlemen will not stand a very good show for getting their cattle out of the country for several weeks. If cattle were in a little better condition they could be driven to destination but with this cattle to start with and bare ranges to drive over this is entirely out of the question.

There yet remain but four days for taxpayers to make their property returns to the assessor. If the returns of any taxpayer are not in the hands of the assessor before the first of May, the assessor is directed by law to make the assessment and to add the legal penalty to the returns as made out by him. Most of the property owners in the county have made their returns but those who have not should attend to the matter at once if they do not desire to have the penalty added.

It is rumored that the Southern Pacific road has secured the contract for carrying the fast mails between New York and the Pacific coast, the contract that is now held by the Santa Fe road and the Atlantic & Pacific roads. The new train will be fast and will only stop for coal and water. For several years here has been a rumor about once in six months that a fast train would be put on the Southern Pacific, but the last one seems to have more backing than any of the previous ones—Western Labor.

Rev. Stewart C. Wright, who will be remembered by many of the residents of this County, is now at Bradford, Ohio. Mrs. Wright presented the Reverend with a son on the 14th inst.

The water in the reservoir has been gaining for some days past. As long as the mills consume no water there will be enough to supply the city.

Every effort will be made by the miners of this section to have the silver convention next July a success in every way and the residents of Silver City will do themselves proud as they always do when entertaining visitors.

A base ball club has been organized at Deming and it is believed to be a stronger nine than has ever been got together there before. Silver City base ballists will have to do some lively practicing if they vanquish the Deming club this year.

Are a fact but there is no false about Fred Shelton's place near the Silver City. The finest silver mines and gold veins are to be found there and the club room in connection is one of the pleasantest resorts in the Territory. Fred knows exactly how to please his customers and does it to perfection.
